PRESS RELEASE

ANIC Strongly Condemns the Recent Deadly Mosque Attack in Egypt

The Australian National Imams Council (ANIC) strongly condemns the recent atrocious attack on a place of worship in North Sinai, Egypt, that killed over 300 innocent worshipers and injured many more.

This terrorist attack that targeted innocent and devout worshippers during a time when Muslims were fulfilling their obligatory prayer ritual on Friday, inside a mosque, has undeniably demonstrated that terrorism DOES NOT have or belong to a religion. Many people around the world, in particular Muslims, have been victims of terrorism.

The Australian National Imams Council (ANIC) calls upon the international community, in particular the Muslim world, to stand strongly against terrorism and causing harm to any innocent people.

Our hearts and prayers are with the victims and their families. We also supplicate to the almighty to protect all mankind from any harm and restore peace and stability to all countries around the world.
