**AUSTRALIAN NATIONAL IMAMS COUNCIL**

*Date: 10th of April 2018*

## **PRESS RELEASE**

### **ANIC Strongly Condemns the Recent Chemical Attacks on the Innocent Syrian Civilians in the City of Douma**

The Australian National Imams Council (ANIC) once again condemns in the strongest terms, the recent troubling reports of another chemical attack on the Syrian people, this time one which has targeted a hospital in Douma, Syria. Reliable reports indicate that there have been a significantly high number of casualties as a result of such unwavering barbarity. It is imperative that there be an immediate response on behalf of the Australian government as well as the wider global community. The Assad regime and its backers must be held accountable.

The Australian National Imams Council (ANIC) is extremely concerned over the little reaction by the international community over this, and previous, horrendous attacks.

The Australian National Imams Council (ANIC) calls upon the international community, in particular Australia, to take a stronger stance against the Syrian regime and its allies and adopt necessary sanctions until the Syrian crisis is resolved.
